**STATE REPRESENTATIVE**  
**Jim Lykam believes**

**Our Students Deserve a  
World-Class Education**

## Our Students Deserve a World-Class Education

Representative Jim Lykam has worked hard to make sure our children and grandchildren get the best education in the world. He voted to raise education standards, improve accountability and keep our best and brightest in the classroom with a \$105 million initiative to make teacher pay more competitive.

## Education is an Investment in the Future

Jim Lykam believes that increased funding for our schools is an investment in our children. Jim voted to raise the pay of Iowa's teachers and increase funding for our public schools.

## Smaller Class Sizes Translate into Better Discipline

Teachers should be able to focus on helping one student at a time without losing control of their classes. Jim Lykam voted for increased education funding so our children can have more one-on-one learning experiences in the classroom.

## Our Students Deserve a World-Class Education

In addition to raising teacher pay, Jim voted to increase education standards by investing in early childhood education, attracting more students to math and science, and instituting an English language learning program for K-12 students.

**Re-Elect Lykam to the Iowa House of Representatives on November 7th**

*Jim will fight to give our children the education they DESERVE. As your representative, Jim has solved complex problems and provided honest, experienced leadership to District 85.*
