State Senator  
**FRANK WOOD**

Let me start by saying “thank you.” I asked for your opinions in January and you responded overwhelmingly. **Two issues I received feedback on are illegal immigration and our economy.** In the Legislature, we are looking to address both of those concerns and I would like more of your thoughts.

Neither of these issues was created overnight and neither will be fixed overnight. But **we have the opportunity to start making progress this year.** Below are some pieces of legislation that we are exploring.

**Please fill out the survey below and mail it back to me, again, your input and ideas make all the difference.**

Thank you and I look forward to hearing from you.

Sincerely,

*Frank Wood*
